DETAILED ACTION

Allowable Subject Matter

Claims 11, 12, 15, 16, 18, 19 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 11, 12, 15, 16, 18, 19, with the allowable feature being wherein illumination light emitted from the illumination optical system ' is modulated by the spatial light modulator based on a predetermined image signal and exposure of a photosensitive material is performed with an image formed by this modulated illumination light(claims 11, 12, 15, 16, 18, 19). Therefore claims 11, 12, 15, 16, 18, 19 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
